

# No.10, Basic Type CC3C3

Turn the arbitrary line  $AB$  around  $A$  by 120 degrees into the position  $AC$ . Connect  $B$  to the midpoint  $M$  of the segment  $BC$  by an arbitrary line and turn it around  $M$  by 180 degrees into  $MC$  (by which  $BC$  becomes a  $C$ -line).

Number of arbitrary lines: 2

Network: 12,12,3

6 Positions.
