

## Nr.8, Basic Type $C3C3C3C3$

Turn the arbitrary line  $AB$  around  $A$  over 120 degrees into the position  $AC$ . Let  $D$  be the reflection-point of  $A$  with respect to the line through  $B$  and  $C$ . Connect  $D$  to  $B$  by an arbitrary line and turn it around  $D$  by 120 degrees into the position  $DC$ .

Number of arbitrary lines: 2

Network: 6363,

3 Positions.
